SOC323	4	2 SOC courses	Monsoon
SOC324	4	3 SOC courses	Spring

The remaining credits may also be completed by taking any elective offered by the department. Electives can be seen when the timetable opens up for enrolment.

School of Natural Sciences

Department of Chemistry

UG Advisor: Dr Basab Bijayi Dhar

Minor in Chemistry

Total credits required: 27

The following courses are mandatory.

Course	Credits	Prerequisites	Semester offered in
CHY111	5	None	Monsoon
CHY211	4	CHY111	Monsoon
CHY214	3	CHY111	Monsoon

At least 12 credits must be completed from the following list.

Note that a course from the following list cannot count towards both Major and Minor requirements. For example, Biotechnology students cannot count CHY122 towards the Minor degree as it is a compulsory course in their Major.

Course	Credits	Prerequisites	Semester offered in
CHY122	4	CHY111	Spring
CHY144	4	CHY111	Spring
CHY221	4	CHY122	Monsoon
CHY222	4	CHY122, CHY221	Spring
CHY242	4	CHY111, CHY122, CHY144	Spring
CHY245	4	CHY111, CHY122, CHY144	Monsoon
CHY311	4	CHY111, CHY103/MAT101/103, PHY101/102/103/104	Monsoon
CHY313	4	CHY111, CHY214	Monsoon

The remaining three credits can be from any course in the Chemistry course catalogue.

Department of Life Sciences

UG Advisor: Dr Neelesh Naresh Dahanukar

Minor in Biotechnology

Total credits required: 21

The department has 10 seats reserved for students opting for a minor degree.

The criteria for selecting students for a minor will be based on the overall CGPA and will be followed by an interview by the departmental committee.

None of the courses have a prerequisite. However, students who did not have biology in their 12th grade must take BIO113 as a compulsory course.

The mandatory courses to be taken are as follows:

Course	Credits	Semester offered in
BIO202	3	Monsoon
BIO204	3	Monsoon
BIO206	3	Spring
BIO210	3	Monsoon

In addition, courses offered to B.Sc. (Research) Biotechnology major students in the III, IV, V and VI semesters can be taken as optional courses (minimum 9 credits) for the minor degree.

Department of Mathematics

UG Advisor: Dr Niteesh Sahni

Minor in Mathematics

Total credits required: 20

About 20 students are registered every year for the Minor. These students receive priority during course registration.

At least two courses (8 credits) must be done from the following list.

Course	Credits	Prerequisites	Semester offered in
MAT101	4	None	Monsoon
MAT102	4	MAT101	Spring
MAT132	4	MAT101, MAT160	
MAT230	4	MAT101/103	Monsoon
MAT220	4	MAT101	Monsoon
MAT240	4	None	Monsoon
MAT160	4	None	Both
MAT280	4	MAT101, MAT102/202/260	Spring
MAT284	4	MAT184	
MAT184	4	MAT101/201/020/084	Monsoon

At least two courses (8 credits) must be done with a course code MAT200 or above and are not in the above list.

Remaining credits can be earned from any course as long as it does not violate the following:

1. A course cannot count towards both Major and Minor requirements. For example, Economics students cannot count MAT 101 towards the minor because it is a compulsory course in their Major.
2. The following courses cannot be used towards the Minor: MAT 020 (Elementary Calculus I), MAT 084 (Basic Probability & Statistics), MAT 103 (Mathematical Methods I), MAT 104 (Math. Methods II), MAT 205 (Math. Methods III), MAT110 (Computing)
3. Certain course combinations are not allowed. If you have already credited a course with significant overlap with a certain MAT course or a more advanced course than the MAT course, you may not earn credit for the minor from that MAT course. A list of such banned combinations will be published before each semester's course registration.

Given that many SoE students have completed MAT courses as core and the above restrictions, the following substitutions are permitted:

(these arrangements apply to all students, not just those in SoE)

- MAT103 will be considered in place of MAT101 as a pre-requisite
- MAT104 will be considered in place of MAT102 as a pre-requisite
- MAT205 will be considered in place of MAT184 as a pre-requisite
- MAT161 will be considered in place of MAT160 as a pre-requisite

Department of Physics
